Dear friends,

We welcome you to the 2022 Meeting on Cardiometabolic Diseases, Obesity and Diabetes. WG on Diabetes and Metabolic Risk Factors, European Society Hypertension.

Chalkidiki is the perfect place to get together, explore the new horizons in our specialty, and expand our knowledge. Every year we ask ourselves 'Can we make it better?', and we believe that this year we have reached new heights. In addition to the usual suspects, we have recruited in the organizing team new blood. Specialists in Obesity, Diabetes and Hypertension, will present up to-date knowledge about diagnosis – prevention and treatment.

We shall be able to convey new and established fact, but, above all, a way of approaching clinical problems which will allow all of us to come back from this experience enriched. There will be also round tables and various interesting lectures. Everyone who will participate, will get 1 out of 6 credits so they can claim to become specialists in hypertension from the ESH.

Take the opportunity to participate in 2022 Meeting on Cardiometabolic Diseases, Obesity and Diabetes. WG on Diabetes and Metabolic Risk Factors, European Society Hypertension, discuss with experts in a friendly environment and enjoy the Greek Nature in a beautiful seaside setting.

Best regards,  
**Prof. VASILIOS KOTSIS**  
Chairman of the Working Group  
on Diabetes and Metabolic Risk Factors,  
EUROPEAN SOCIETY HYPERTENSION
