Editorial

Dear Colleagues,

We are really very happy to welcome you again in Athens at the **9th Official pre-ESH International Congress Satellite Symposium**, entitled **“Update on difficult to Control Hypertension and Related Comorbidities”**, on **31 March @ 1 April 2023** at the **Benaki Museum Amphitheater (Piraeus Street)**.

Last June we also had the pleasure of holding in Athens the prestigious 31st European Meeting on Hypertension and Cardiovascular Protection that was indeed a great success in terms of the attendants' participation (both in person and virtually), as well as the high quality of the scientific programs and social events contained therein.

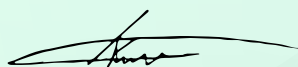

We are looking forward to your participation to the meeting that continues to maintain in its own distinct characteristics: interactive with short duration of presentations and assignment of one panelist per speaker, dedicated sessions to pharmacotherapy and renal denervation for management of uncontrolled hypertension in light of the upcoming ESH guidelines and session dedicated to ESH Research Projects with active involvement of leaders of ESH Excellence Centers.

Participants who are taking care of hypertensive patients (Cardiologists, Internists, Nephrologists, and General Practitioners) after completion of the Symposium will be able to transform into clinical practice the medical knowledge shared in the meeting, leading to better hypertension management.

Participate, learn and live the experience of the 9th Official pre-ESH Congress Satellite Symposium in Athens 31st March-1st April 2023.

With warm regards,

Costas Tsioufis

Chairman of the Symposium
President of ESH (2018-2019)

Roland E. Schmieder

Co-Chairman of the Symposium

Guido Grassi

President of ESH (2022-2024)

09.30-10.30 **WORKSHOP 1** (6 slides / 6 mins per presentation)

All you should know about ABPM

Coordinators: **A. Kollias (GR), E. Manios (GR)**

09.30-09.36 How to perform an ABPM

E. Manta (GR)

When to perform ABPM

I. Andrikou (GR)

How to interpret ABPM

D. Konstantinidis (GR)

ABPM vs home BP

M. Poikilidou (GR)

ABPM vs cuffless measurement devices

E. Triantafillidi (GR)

Questions from the fellows

N. Karaminas (GR), S. Droghkaris (GR), D. Polyzos (GR), M. Kouremeti (GR), A. Mavroudis (GR)

10.30-12.00 **WORKSHOP 2** (6 slides / 6 mins per presentation)

How to interpret findings from TOD in hypertensive pts. A case based discussion

Coordinators: **M. Marketou (GR), T. Makris (GR)**

From ECG

P. Iliakis (GR)

From 24 ambulatory ECG
