

Justina Montejunaite, MD
Paris, France

Cardiologist in Bichat Hospital, Paris, France. Her clinical and research interests focus on resistant and secondary hypertension as well as cardiovascular imaging. She also serves as a lecturer in cardiovascular physiology at the Faculty of Medicine, Paris Cité University. She is currently pursuing a PhD investigating hypertension control in patients with chronic kidney disease. Her research aims to enhance the understanding of factors influencing blood pressure management and to improve cardiovascular outcomes in this high-risk population. She is an active member of the European Society of Hypertension, European Society of Cardiology, French Society of Cardiology and French Society of Hypertension.
