

Janis Matthäus Casper, MD
Hannover, Germany

Clinician-scientist and practicing physician specializing in nephrology, with a strong focus on the epidemiological aspects of kidney disease and its intersection with cardiovascular diseases. His research focuses on the emerging field of onco-nephrology, investigating the renal complications of cancer therapies and optimizing kidney care in oncology patients. He is an active member of the European Society of Hypertension, German Society of Nephrology (DGfN) and European Renal association (ERA).
